

WAY2GO

There is a sensitivity to Christianity in our communities/schools etc, so we need to rebuild mana within these areas

Jesus gives us the ultimate example of ministry to our community. They can apply to the time and resources spent on the different groups

Feeding the 5000 – Matt 14

Gave an opportunity to build a community/to share our resources/to start the good news journey and to see miracles

Build trust and Mana in our communities
Doing things with no strings attached

Sausage sizzle- Building Mana in the community. The need – hungry kids
Having an answer to why – feed the hungry, love our neighbour

- What are your resources?
- What have you done that might give ideas to others?
- What could you do?
- Where are the kids hanging out?

Ask your community

Sending off the 72 – Luke 10

Jesus takes 72 of his followers and empowers them to do ministry. They are narrowed down to 72 to teach and build relationships with.

School connections - building relationships –

Taking the skills we have

Building with Ben

Ben's shed. Fruits of the spirit

Gift from the church to the school. Mentoring

- Schools/Kindys/Kohangas are ripe for offering volunteers – what could you do?
- What other organisations could you build relationships with?
-

12 Disciples

Jesus spent the majority of his time with the disciples, training future leaders and living faith with them. Allowing their mistakes and weaknesses. When we are together a lot we get to see all sides of each other and we can grow together

Intermission - discipleship only after building trust.

Whanau nights.

Church members teaching cooking.

Our model used a fortnightly study and fortnightly fun night. Used Diary of a Disciple Youth Alpha!

- How can you bring real live faith to the children you have built relationships with?
- What resources are there?
- How can you bring knowledge and experience together?

Three Closest (Peter, James and John)

These were the guys that Jesus trained up to build the church – spent the most time, took them into his personal life, drew them aside, took them to meet with God!

After we do Alpha we will be handpicking some of our kids for leadership training. This is done through prayer as we often know the most charismatic doesn't always make the best leader!

Anglican resource - Take the lead

Helped with projects around the house – Jordan/deck

- Who are your future leaders?
- What are your resources to help with training/discipling? (people/materials)
- What every day activities can they be a part of to see how you live your faith?

The journey to the end goal is a long term plan, and will most likely have failures

Failures - Dinner church/Godly play. Gumbo dancing

FINAL THINGS

We are strategic from the beginning with building trust with no strings attached all the way through to inviting them to join in to discipleship.
